

LANNON ELEMENTARY SCHOOL

PROJECT UPDATE

DEAR PARENTS, STAFF, AND FRIENDS OF LANNON ELEMENTARY SCHOOL:

Please pardon our dust as we start this exciting addition project for the Lannon Elementary School students, staff, parents, and visitors. Safety and minimal disruptions are both our number one priority. Should you have any concerns please contact us immediately so that we can address it. Project information and a site plan are included on the back.

EFFECTIVE 1.21.2025

Traffic Flow: Parents pick-up and drop-off on the **NORTH SIDE OF THE SCHOOL ONLY**. Parent pick-up will now occur at the awning on the front (north side) of the building. Students will exit out the front doors and walk to waiting vehicles. Meanwhile buses will pick up students in the back (south side) of the building. Buses will have a separate pick-up and drop-off plan. Project deliveries will be stopped during bus/parent drop-off and pick-up to minimize traffic. Due to limited space, we are staggering pick-up times based on last name:

If your child's last name begins A – L please arrive for pick-up no earlier than 3:50 p.m.

If your child's last name begins M – Z please arrive for pick-up no earlier than 4:00 p.m.

Construction Hours Worked: 7:00 AM to 5:00 PM Monday through Friday. Work may also be performed on Saturdays.

Public Safety: This project is a 100% hardhat job. For the safety of the public, the jobsite is off-limits to all unauthorized personnel. The construction fence has been installed to prevent unauthorized persons from entering the project. All persons entering the jobsite must check in with Adam Krebs, Construction Superintendent, by calling: 262.894.5019.
