

Referendum Projects

✓ On time ✓ On budget

Dear Community,

During these final weeks of what has been a difficult school year, I reach out with gratitude. Your continued support is a beautiful reminder of the resilience and unity that define our community.

Summer is traditionally a quieter time, however this year will be different. Traffic patterns at Maple Avenue Elementary School will be entirely reconfigured over summer break and the cafeteria at Templeton Middle School will be expanded. Work will also continue on other referendum funded projects that are already underway. These facility improvements will have a positive impact for many years to come.

Thank you for supporting students and one another.

Sincerely,

Dr. Paul Mielke
Superintendent

Lannon Elementary School

Hamilton High School

Follow project progress on our district website

The projects at Hamilton High School and Lannon Elementary School are scheduled to be complete by the start of the 2025-26 school year. Crews have made tremendous progress on both additions. During summer break, crews will move into existing building space to renovate and connect to newly constructed additions.
